PACKAGING

Built for buyer-led product development

Share your target market, price position, colors, sizing and packaging direction. We develop the construction and treatment requirements through sampling before bulk production.

PRODUCT DEVELOPMENT

A focused feather yarn program

From initial brief to approved sample, each specification can be aligned with your brand and channel requirements.

01

Feather yarn expertise
Fine surface pile and a soft hand feel for comfort-led ranges.

02

Shea butter treatment
Treatment options can be developed and confirmed during sampling.

03

Brand customization
Choose colors, sizing, labels, hangtags and retail presentation.

04

Sample before bulk
Review construction, touch, shade and packaging before approval.

05

Buyer-specific development
Adapt programs for retailers, brands, gifting and seasonal campaigns.

06

Repeatable production
Move from approved sample to controlled bulk manufacturing.

CUSTOMIZATION MENU

AREA	AVAILABLE DIRECTIONS
Product	Crew / ankle / lounge silhouettes; buyer-defined sizing
Color	Solid colors, coordinated palettes and seasonal directions
Branding	Private labels, hangtags, header cards and gift presentation
Packing	Pair packs, multipacks and retailer-specific requirements
Treatment	Shea butter treatment options subject to sample confirmation

Final material composition, treatment specification, testing, MOQ, sample timing and lead time are confirmed against the buyer brief and approved sample.
